NITLAIN SYPORT QJANGLE REDLEG - On People with Past RIS Associations

Reference: [] , 6 November 1989 (not to [])

1. Pursuing the matter of machine retrieval of information of possible value to you, we caused a search of the RIS machine system for names of citizens of Belgium, Holland and Luxembourg. The persons in this list, forwarded under separate cover, have at one time or another been in direct or indirect, witting or unwitting, contact with the RIS. The information on these persons reflects input from KVRACK records and the overt body of literature on the RIS, the latter including some pre-war personalities (you will note the eight pages or so on L. TREPPER). We are attaching to each list a copy of instructions which you receive with your Soviet Presence lists, and hope this will suffice to read the accompanying list.

2. As with the list forwarded with reference, we are not sure this data will be of value to you. There may be names of a few people who have fallen from memory and who would be worth checking again. Give us your reaction.

3. [] : The reference forwarded to [] and [] a list of subjects of 201 files to whom one or more of the SB country codes have been attached. We judged that there would be too few to make it of value to search among Luxembourgers with this connection, but let us know if you would like that list to supplement this one.
